

# Geant4 Logo Competition - closing 12th Nov. 2016 midnight

---

The **Geant 4** logo is already 20 years old! We are looking for a new, fresh logo which is eye-catching and also better defines what we do and who we are as a collaboration. It should also allow others to refer to us and our code on their web-pages (e.g. companies, universities, documentation, conferences...) as well as to identify us on video platforms (e.g. Youtube, Vimeo, Dailymotion) and social media (Facebook, Twitter, ...).

Put your creativity to work and send us your proposals!

## Two vector formats are required :

- A square logo, ratio 1:1 (for Youtube, Facebook, ...)
- A horizontal banner, aspect ratio between 3:1 and 5:1 (for web-pages and publications)
- A slogan (or design space) could be added to the horizontal shape (max 40 characters)

**Geant4** is a Monte Carlo toolkit for the simulation of the passage of particles through matter. Its areas of application include high energy, nuclear and accelerator physics, as well as studies in medical and space science.

The software is used by tens of thousands of people globally - scientists researchers, students and engineers. The project began 22 years ago at CERN, but is a world-wide collaboration involving many nationalities. The logo should reflect both the scientific nature of particle physics detector simulation and the collaborative nature of our project. The associated publicity can be far reaching.

Web site : <http://www.geant4.org/geant4>

## Deadline

---

The contest is open for two weeks, **from 29th October 2016 midnight (GMT) until 12th November 2016 midnight (GMT)**.

## Prize

---

One winner will receive the prize consisting of 150 €  
We will acknowledge the winning designer on our homepage
